

## Redondo Summer School Open To Local Students

It was announced this week that students of Torrance High School are eligible to attend the summer session of Redondo Union High School.

Classes this summer will begin June 16 and run six weeks to July 25.

Courses are being offered in the fields of business education, homemaking, industrial arts, and liberal arts.

Classes are open to graduates and undergraduates.

Further information may be obtained by calling Redondo 2361.

## Local Stores Unaffected By L.A. Settlement

Settlement of the drug clerk pay dispute in Los Angeles this week has no effect on the two drug stores in Torrance which have been closed since February 11, it was announced. They are the Sontag and Whelan drug stores, both on Sartori ave.

Two stores in San Pedro also remain shut down, it was disclosed. The scheduled strike in Los Angeles was averted Tuesday night when the conference between union leaders and management representatives of the three drug-store chains—Thrifty, Owl-Rexall, and Whelan—reached an agreement.

## L.A. Selects Arbitration Board Member

W. M. Coleman, supervisor of supplies and equipment section of the business division of Los Angeles City School District, has been named to represent the Los Angeles schools on the board of arbitration which will decide the ownership of fixtures and equipment in the buildings of Torrance schools. The Torrance member of the board is E. W. Ingram, assistant superintendent of schools in charge of business. The third member named by Dr. C. C. Trillingham, county superintendent of schools, is George L. Yelland, business manager, Alhambra City High School district.

The arbitration board will have final say on what stays in the Torrance school buildings for use of the children of this city, and what goes to Los Angeles.

Already the Superior court has restrained Los Angeles from removing buildings or selling real property, holding that Los Angeles is "trustee" for Torrance in protecting the property until July 1. Also the court restrained Los Angeles from moving "fixed" equipment.

What constitutes "fixed" equipment will come under the findings of the arbitration board.

Handling the same details for Redondo Union High School district, involving Torrance high school, will be W. K. Cobb, superintendent at Redondo, Coleman and Yelland.

## Special Laws For State School Aid Get Opposition

(Continued from page 1-A)

as has asked me to reply to your letter of May 16, 1947. "Under the new apportionment bill (Assembly Bill 2120) signed by the Governor today, the Torrance Elementary School District will receive during the school year 1947-1948, apportionments of state funds, as determined by the bill, on account of the attendance of pupils in any schools or classes maintained by the district during the current school year. If the district did not itself maintain any schools or classes during the current school year, and I understand it did not do so, the district will receive during the school year 1947-1948 from the State \$2,400. (Education Code Section 7051 as it appears in Assembly Bill 2120).

"Inasmuch as state funds are apportioned to school districts on a reimbursement basis, it follows that the Los Angeles City Elementary School District should receive apportionments from state school funds during the school year 1947-1948 on account of the attendance of children educated by it during the school year but who reside in the Torrance Elementary School District. The Torrance Elementary School District is now in no different position from that in which for many years every new elementary school district has found itself so far as state support is concerned, which is that it receives nothing from the State (except the \$2,400 apportionment mentioned above) until the school year following that in which it actually maintains schools and classes.

"Any attempt to amend the Education Code at this time to provide otherwise would, I am sure, meet with very vigorous opposition. Particularly would this be true of any effort to amend the code in accordance with the suggestion made by Mr. Prichard and noted in your letter because it would reverse a legislative policy of many years standing and would adversely affect as many districts as it would benefit.

Yours very truly,  
ALFRED E. LENTZ,  
Administrative Advisor."

### SHOWS NERVOUSNESS

There are drivers fully aware of the evil of riding the clutch who are very careful never to stop at the traffic light with the car in gear. Yet, while waiting with the gears disengaged, many of these have a nervous habit of depressing the clutch pedal from time to time. The habit, like many others, can be formed with the victim entirely unaware of it.

## Board of Education Fixes Tentative Budget For New Year

## Local Boy, 15 Shoots Father After Scolding

Douglas Henderson, 15-year-old school boy of 20525 S. New Hampshire st., shot and wounded his father with .22 caliber rifle last Wednesday night, allegedly because he had been scolded for poor school work and keeping late hours.

Sheriff's deputies said the boy called the Vermont station following the shooting saying: "I just shot my father. I'll wait until you get here."

The father, Elbert Henderson, 43, was taken to Harbor General hospital for treatment. Attendants said the bullet caused a superficial scalp wound.

Deputies said that the boy has told conflicting stories as to the reason for the shooting, including one in which he said that he shot his father because of partially shown his sister Carol, 12. He also disclosed that he planned the shooting, saying he obtained the rifle three days before from a friend.

The boy was held pending investigation.

California is second only to New York in tax revenue collected from horse racing, a University of California survey shows.

## Palos Verdes College Gets Army Buildings

The Palos Verdes college will have use of the land and buildings used by the government during the war for the 410th Army Air Forces Base unit, according to action taken by the Board of Supervisors at its Tuesday meeting to expedite the procedure necessary to release this property.

Chairman of the board, Raymond V. Darby, submitted a resolution which pointed out that the sponsor of the proposed new educational institution would

have to procure this property as speedily as possible in order to properly renovate barracks and other installations for the opening of the fall term.

The need of educational facilities throughout California is acute and all necessary action is being speeded up in preparation for the opening of the new college. Plans for the reconstruction of the buildings have been filed with the County Building department, the college catalog has been issued, faculty appointments are being made and student applications are being received.

According to Supervisor Raymond V. Darby, the property was declared excess by General Hale of the Army Air Forces in San Francisco some weeks ago.
